

Together, Let's Fix It PG!

Let's Fix Our Eroding Beach Path. Along Ocean View Boulevard the council is allowing our beautiful beach path to erode, crumble into the bay without a plan to preserve it. In one area the path is only 6 feet from the road with a 40-foot drop for anyone who mistakenly steps too close to the edge, especially children! That's dangerous, unacceptable. Our town is famous for our treasured beach path. Past generations built stone retaining walls to save the beach path. Thank goodness they did. I will work to fund permanent solutions to preserve the beach path for us and future generations. I have experience working with state and local agencies to solve big challenges.

Let's Prevent Catastrophic Fire in George Washington Park. The council has negligently allowed the creation of a 17-acre tinderbox of dead trees and dry grasses. CALFIRE says the park is a "significant fire risk due to fuel accumulation and proximity to residential structures." In high wind conditions, embers can fly one mile, igniting spot fires. The residents of Paradise, Lahaina and Pacific Palisades paid a high price for thinking a catastrophic fire would never happen to them. Let's protect our city now! I will work with the Fire Chief & Pacific Grove forester to responsibly reduce excessive fuels to help prevent the loss of human, animal and plant life.

Let's Enhance the Safety of Pedestrians, Bicyclists and Drivers. I will work to dedicate additional funding for neglected road and sidewalk repairs, crosswalk accessibility, and implement a Pedestrian/Bicycle Master Plan & Safe Routes to Schools program. I will work with our Police Chief to prioritize pedestrian and bicyclist safety by deterring speeding vehicles and enforcing the law.

Tax Increases Don't Guarantee Funding of Essential Services! If PG voters approve increasing the city sales tax by 0.375% on the November 3 ballot, the council is not obligated to spend one dime on essential public services. They've said any future tax increase could fund an increase in "council pay." If elected, I will fight to direct General Fund money to serve residents' needs, not councilmember pockets. We can do better!
